The President of Lithuania

Mr President !

I wish You on my and mine friend, Salman Rushdie's behalf all the best for free and independent Lithuania. Te gyvena laisva Lietuva ! We are happy that Lithuanian people have fought its basic rights - human and national ones.

I would like to present the book about my life's passions - love and art. This is my gift. I believe, that people live in their books and ideas. Many people in Western Europe are interested in Mr President's way to democratic leadership of Sąjūdis and Lithuania. Maybe, it's good time for writting a big interview ? My book and this letter is going to be brought to Lithuanian from London by my friend Pawel Rabiej; polish radio - journalist, an author of many interesting " river interviews ". I can only say, that this kind of book - interview with The 1st Man of Baltic Countries (if it's wrote) will be published very fast all over the world.

Your sincerely
